

"When it comes to static protection, ACL has you covered."

Winter 2011

### ACL Calendar

- **AERODEF MANUFACTURING:** ACL is happy to participate in this new technical exposition and conference that focuses on innovation and technology development in the aerospace and defense manufacturing industries. Please visit us April 5–7, 2011 at booth 1286. For additional show information visit: [www.aerodefevent.com](http://www.aerodefevent.com).
- **SMTA EXPOS:** ACL will exhibit with REStronics Southeast's block of booths on April 21, 2011 in Duluth, GA for **ATLANTA SMTA** and May 5, 2011 for **HUNTSVILLE SMTA**.
- **THE 33RD EOS/ESD SYMPOSIUM:** This year's symposium will take place September 11–16 at the Disneyland Hotel in Anaheim, CA.
- **PRODUCTRONICA 2011:** This November 15–18, 2011 ACL will be in Munich, Germany for one of the biggest international electronic trade shows in the West.

### New ACL Catalog for a New Year

The wait is over! After many months and countless hours of proofing, ACL's new catalog is finally published. This year we are offering both printed and CD versions of the catalog to try and meet the needs of those who want an old fashion brochure versus those who prefer to go paperless (CD will be available at the end of February). A change we hope you will enjoy is the new colorful format that helps to signify our product groups:

- **Purple for coatings** including Staticide® and ESD Safety Shield.
- **Green for floor products** including dissipative floor finishes and the new Premium ESD Paint.
- **Red for ESD workstations products** including the Dualmat™ and new ionizing guns (now in stock).
- **Orange for static detection meters** including the 750 Combo Tester, field meters, surface resistivity meters, and the new ACL 850 Analog Megohmmeter.

Please order your new ACL Staticide® Catalog today at [info@aclstaticide.com](mailto:info@aclstaticide.com)

—Mary Kay Botkins

### Rep of the Year

The "Rep of the Year" award for 2010 is presented to REStronics' oldest location, REStronics Northland. Congratulations and thanks to **Ralph Savage, Gavin Matupang, and Char Thomas** for supporting ACL!

As we are thankful to each of our rep groups, it should be noted that it was difficult to choose a "Rep of the Year" for 2010 since we had several teams support us well despite a challenging year. A special thanks to

REStronics New England, REStronics Illinois, REStronics Metro, REStronics Northeast, and The IPS Group in Mexico for your dedication and hard work.

ACL would also like to welcome our new reps in the heartland, Chris Stoller, Rick Emery, and Andrew Coleman. Chris, Rick, and Andrew cover Indiana, Ohio, Kentucky, Michigan and Western PA for REStronics Midwest.

### Product Labels and Price Lists

Some of you may have noticed a new look at ACL. We have slowly been updating various product labels and literature which is also reflected in our new catalog. Throughout 2011, we will continue to these updates and we

hope you enjoy the new look!

ACL's latest price list was published in November. If you are using an older price list, please let us know and we will send you an updated version either electronically or by post. Contact Mickey at [mickey@aclstaticide.com](mailto:mickey@aclstaticide.com).
