November 2009

Wakefield Thermal Solutions Appoints Allied Enterprises Inc. As The Manufacturer's Representative in the Several States Located in the Midwest

Wakefield Thermal Solutions is pleased to add Allied Enterprises as its sales representatives in several midwestern states. Allied Enterprises was founded in 1954 and is now under the second generation of family ownership. Allied Enterprises has offered global product solutions and value-added services to its customers and hopes to help bring more value to Wakefield's as well. Allied Enterprises' twelve field sales engineers and six inside salespeople will serve Wakefield in the following states: Michigan, Indiana, Kentucky, Ohio, West Virginia, and Western Pennsylvania.

Wakefield Thermal Solutions is a leading manufacturer of thermal management solutions, heat sinks, machined assemblies and extruded aluminum products. The industry's broadest product line offers covering solutions for nearly every thermal management problem. Wakefield provides a variety of natural convection, forced air and custom bonded fin extrusions, a complete line of cold plates for liquid cooling, thermal design and application engineering services. Their capabilities include extruding over 35 million pound a year of aluminum extrusions, over 100 CNC machining centers and various numerous other fabricating machines.
