Wakefield Is Pleased to Announce Fred Duquette as Vice President of Sales & Marketing

Wakefield, a global leader in Thermal Management Solutions, Electro-Mechanical Packaging and Custom Metal/Plastic Products, is pleased to announce the appointment of Fred Duquette to the position of Vice President, Sales & Marketing. Fred comes to Wakefield from roles as the Vice President of Marketing & Sales for contract equipment manufacturer Fu Rong Industries in China and the Vice President, Global Business Development for Pentair Technical Products, where such brands as Schroff, Calmark, Birtcher and McLean were featured.

Wakefield has been a leading manufacturer of thermal management solutions, heat sinks, machined assemblies and extruded aluminum products since 1957. The industry's broadest product line offers covering solutions for nearly every thermal management problem. Wakefield recent acquisitions will be led by Fred's focus on enhancing the Wakefield "Customer Experience" and enabling Wakefield Customers to even more creatively leverage Wakefield's extruding, powdered metals, injection molding and universal joint competencies.
