To Whom It May Concern,

As an authorized distributor of electronic components, Digi-Key Electronics is able to provide information and documentation made available to us by the manufacturers regarding material content of the product we sell or the manufacturing processes used to make these products.

**REACH, RoHS2, and other Material Composition Information:**

Digi-Key is aware of the RoHS2 Directive 2011/65/EU. As of January 1, 2013, all products listed as RoHS Compliant in our system are compliant with the RoHS 2011/65/EU Directive, to the best of our knowledge.

RoHS statuses are available on our website, as well as every quote, pack list and invoice we issue to our customers. We also have a RoHS Verification Tool available on our website at [www.DigiKey.com/environment](http://www.DigiKey.com/environment)

REACH statuses are provided on every quote, pack list and invoice we issue to our customers.

Digi-Key does not intentionally introduce or expose Mercury to the products we sell while they are in our facility. Information regarding intentionally added Mercury and proper disposal reminders are provided on our website, as well as the on any quotes, pack lists and invoices we issue to our customers containing the affected parts when we are made aware of it by the manufacturers of the products.

The availability of manufacturer documentation regarding the use of Mercury is will be annotated on any quote, pack list, and invoice we issue to our customers when applicable.

The above information is based solely on information provided to Digi-Key by the manufacturers. Digi-Key is not responsible for the accuracy of this information.

**Conflict Mineral Requests:**

Digi-Key is aware of the Dodd-Frank Consumer Protection Act, Section 1502. We can provide the Conflict Free Sourcing Initiative Conflict Mineral Reporting Template (CFSI CMRT) forms when they are made available to us by the manufacturers, but are unable to provide certification on the CMRT under the Digi-Key Electronics name.

Please direct specific inquiries regarding any of the above to [RoHS@DigiKey.com](mailto:RoHS@DigiKey.com).

You may also contact the manufacturers directly regarding any of the above subjects. Contact information for the manufacturers can be found on the [Manufacturers Page](#) on our website.
