

Using_C

This is a page about showing example application's utilizing the C Language, all built and run natively on the ARM device running Linux.

- [Hello World](#)

Hello World

Ubuntu/Debian software dependencies

```
sudo apt-get install build-essential
```

hello.c

```
#include <stdio.h>

int main (void)
{
    printf ("Hello, world!\n");
    return 0;
}
```

Build:

```
gcc -Wall hello.c -o hello
```

Run:

```
voodoo@panda-lgb-a1:~/examples$ ./hello
Hello, world!
```
